

- ◆ **High-quality, economical, multi-purpose panels**
- ◆ **Excellent acoustical performance**
- ◆ **Class A fire rated**
- ◆ **Standard, designer or custom finishes**

ArtUSA® Acoustical Wall Panels are the solution for areas that require noise reduction and are available in a variety of models for various applications. The acoustic Wall Panel is manufactured to the highest standards and is specifically designed as a standard absorber panel that offers an economical way to resolve reverberant noise problems. Application for the acoustic panels includes schools, universities, offices, airports, churches, restaurants and any area where excess reverberation is a problem.

The acoustic Standard Wall Panel provides the ultimate in performance with excellent NRC ratings. Available in four standard thicknesses: 1/2", 1", 1 1/2" and 2" with custom thickness available. Acoustic Panels are constructed with a 6-7# PCF rigid fiberglass absorber core. The edges are chemically hardened and are available in 4 edge profiles. acoustic panels are available in standard or custom-sizes (up to a maximum of 5' X 10') with custom, designer or C.O.M fabric available.

Installation of the acoustic panels is simplistic using mechanical clips, adhesive or hook & loop. Consult with factory on the best-suited mounting for your specific application.
